LIFE FOSTER: TRAINING, EDUCATION AND COMMUNICATION TO REDUCE FOOD WASTE IN THE FOOD SERVICE INDUSTRY

01/09/2018 - 31/08/2022

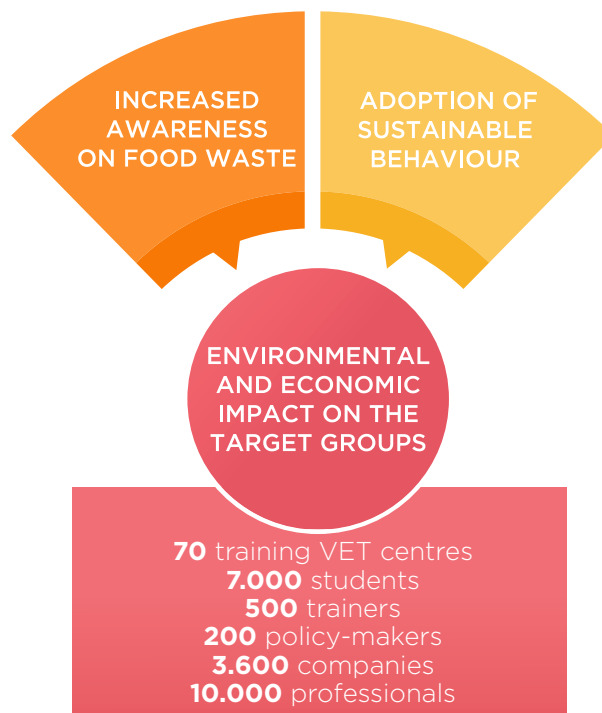

This project has been co-funded with the support of the LIFE financial instrument of the European Union.

This publication reflects only the author's view and the European Commission is not responsible for any use that may be made of the information it contains.

PROJECT GOALS

1. **Raise awareness** about **food waste** as a major problem in the restaurant industry and the possibility of **preventing** and **reducing** it through the application of more sustainable practices.
2. **Train trainers & students**, as well as **professionals** (back/front in-house staff), of the restaurant industry in the adoption of more **sustainable practices**.
3. **Raise policy makers' awareness** of the need for **measures & instruments** that favour food waste prevention and reduction.

EXPECTED IMPACT

ENVIRONMENTAL PROBLEM

The project focuses on the environmental impact of the restaurant industry, which produces **10.5 million tons** of food waste (equivalent to **21 kg per person**) each year in Europe. The contributes with **12% of the total food waste**.
